

Entry	BCCGNDB0023
Name	Cheryl Ho, Janessa Laskin, John Wu
Department	Medical Oncology, Radiation Oncology
Study	OaSIS- Outcomes and Surveillance Integrated System
Participants	Not stated
Number	>2000
Study Design	<p>Three phases: 1) Focused on head & neck tumor groups primarily on integrating current clinical datasets, CAIS data and pharmacy information. 2) Expansion to incorporate full complement of radiotherapy dosimetric datasets linked to each treatment course. 3) Integration of OaSIS with other research programs, i.e. Tumor Tissue Repository.</p> <p><i>*note: The goal is the development of a software platform that will effectively integrate data and enhance information to facilitate collaboration between tumor groups, researchers, clinicians and policy makers.</i></p>
Duration	1998-present
Phenotypes	lung/head and neck cancer
Blood sample	No
DNA	No
Genotype Platform
